

Software for Glass

A+W BUSINESS PRO

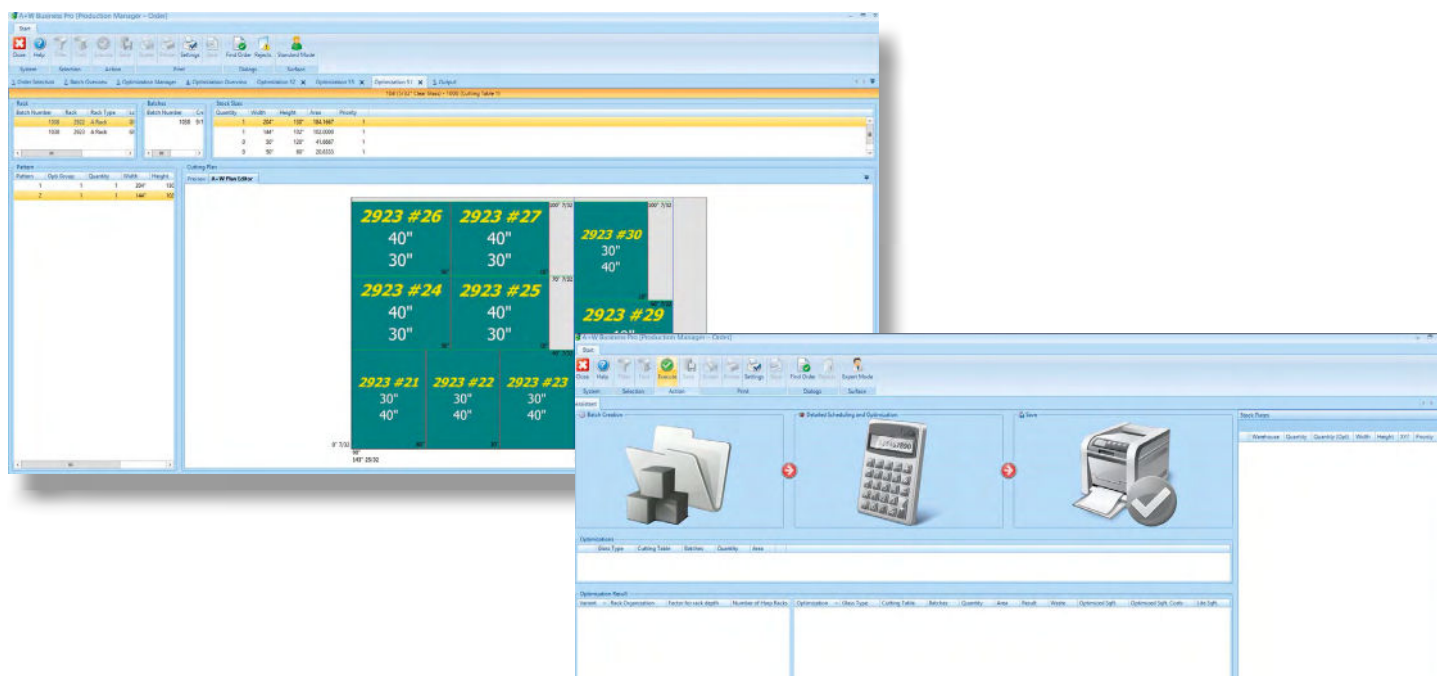

Integrated Production Control.

A+W Business Pro is a fully integrated solution of the latest generation for small and medium-sized companies. The process from quotation to dispatch has never been easier!

www.a-w.com

Clear, simple, clever

The “Pro” in the name:

A+W Business Pro is a professional and cost-effective entry-level solution for small and medium-sized companies where order processing and production planning are completely integrated.

Business:

With the commercial part of the integrated solution (A+W Business), you can handle the entry of quotations, orders, credits, complaints, and delivery notes and manage orders and enquiries; you can also take control of other company areas (e.g. warehouse, purchasing, despatch, etc.)

Using the integrated statistics module, you can create numerous customer and product-specific queries and evaluations. This helps you manage your product portfolio, as well as your purchasing and sales prices.

The system offers extensive technical support for the processing of quotations and orders. All elements are immediately displayed true-to-scale and graphically during entry in order to prevent entry errors and speed up the entire process. Price calculation with A+W Business is very flexible and allows division into standard prices and customer-specific terms.

The integration of the A+W Logistics Optimizer expands the ERP system to include complete route planning and control (incl. delivery app for the driver) and rounds out the entire package of possibilities in A+W in the areas of despatch and logistics.

The possibility of incorporating a Webshop – A+W iQuote (G) – offers you the ability to create an additional 24/7 online sales channel and to manage it directly from your central system.

Modules:

A+W iQuote (G)

A+W Analytics

A+W CAD Designer (Bars)

A+W CAD Designer (Shapes)

A+W Logistics Optimizer

A+W Capacity Planner

Your benefits:

- Perfect entry-level solution: fully-integrated commercial and production solution, which thanks to many possible expansions, grows with you
- Easy, quick production processing and release with wizard function
- Low time and cost commitment thanks to intelligent and easy production control (for example production papers and standardised storage organisation)
- Secure, correct stock figures thanks to reports from production
- Easy and quick output of production papers and NC code for connected machines
- Easy and adapted functions in the areas of warehouse and breakage management (additional, expanded functions using the A+W Barcode Manager (EL))
- Reduction of direct waste thanks to the latest optimisation algorithms and intelligent expansions such as A+W Shape Optimizer
- Reduction of real waste thanks to the efficient handling of residual sheets and breakage
- Possibility of incorporating technical drawings (e.g. DXF files, CAD templates for complex glass designs) with an easy and graphically-supported technical order entry

Pro(duction):

Order data is available immediately for production planning. Thanks to the integrated wizard function, the process of batch creation, optimisation, on through to production release can be completed with a single mouse click.

The user can switch to "expert mode" at any time and thus influence the results directly. The cut optimisation per batch and glass type is based on the latest algorithms and, thanks to the intelligent variation possibilities for storage space depth, selection of various stock sizes and residual plates, delivers very good results.

With the optional expansion A+W Capacity Planner (EL), you can determine production costs, processing and delivery dates – based on your real machine capacities – and write these back to the order and communicate them to customers. This is how you can increase delivery reliability and customer satisfaction.

Thanks to the possibility of incorporating the easy yet high-performance scanner solution A+W Barcode Manager (EL), you will achieve significant improvements and savings potential in stock and breakage management.

If your company grows more, there is an easy upgrade option to the premium solution "A+W Production", which enables a complete takeover of the existing and non production-specific transaction data.

A+W Barcode Manager

A+W Realtime Optimizer

A+W Production Terminal

A+W Shape Optimizer

A+W – over 40 years of global market leadership in software for the flat-glass, windows and doors industry – for small, medium-sized and enterprise companies.

Our long-term experience is your benefit.
